

BEAR CREEK INDUSTRIAL PARK

SURREY, BC

CLIENT: BASTION DEVELOPMENT CORP.

Aplin & Martin were the consultants for the engineering, planning, design, inspection and contract management for this fifty (50) hectare site. The site was developed and constructed in four (4) phases over a four (4) year period. This 3.5 million dollar project was completed in 1993.

In order to obtain the best use of the land, several creeks which fall under the Provincial and Federal Fisheries Department, were relocated to form one creek. This one kilometre long creek was designed to provide passage for all creek habitat.
